

Spirent **TTsuite-WAVE-DSRC 1.0.0**

2017-04-04 Release Notes

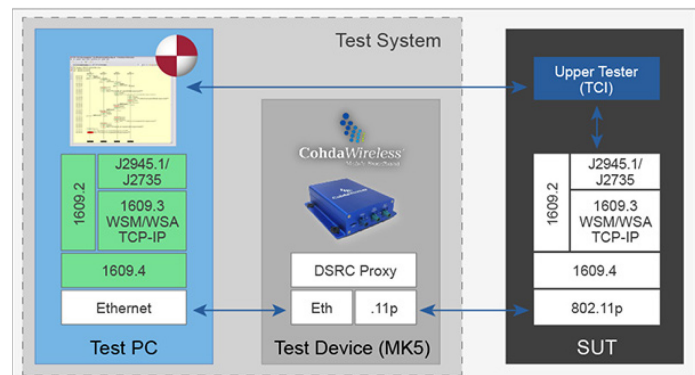

Ensure that your WAVE-DSRC implementation is standard compliant based on USDOT test specifications!

Spirent Communications is excited to announce the release of the first WAVE-DSRC conformance test product providing a set of tests required for the USDOT certification.

The test suite pack consists of different protocol conformance test suites as per the USDOT Certification Operating Council (COC) conformance test specifications.

Features at a glance

- 4 conformance test suites as per the USDOT COC test specifications
 - IEEE Std 1609.2™ (subset)
 - IEEE Std 1609.3™ (full support)
 - IEEE Std 1609.4™ (subset)
 - SAE J2945.1/J2735™ (upcoming)
- Full test automation via Certification Operating Council's Test Control Interface (TCI) Protocol specification
- Frameworks for individual adaptation
- Extendible with lots of useful plugins to meet the constantly changing development requirements
- [More details](#)

Please mind the registration process!

- To download TTsuite-WAVE-DSRC, you need to register yourself in the Spirent Support Center at <https://support.spirent.com>.
- The support team will check your data and notify you about your approval.
- Afterwards, please log in and use the download app tab on the left side. Select your product and filter for categories and operating system.
- TTworkbench compatible TTplugins are available in the Customer Support Center too, so please do not forget to update them respectively.
- In case of any issues, please contact us at support@spirent.com. To ensure fast response times, please mention **TTworkbench** in your email.

Download of TTsuite-WAVE-DSRC
