

Spirent TTsuite-WAVE-DSRC 1.0.1

2017-07-05 Release Notes

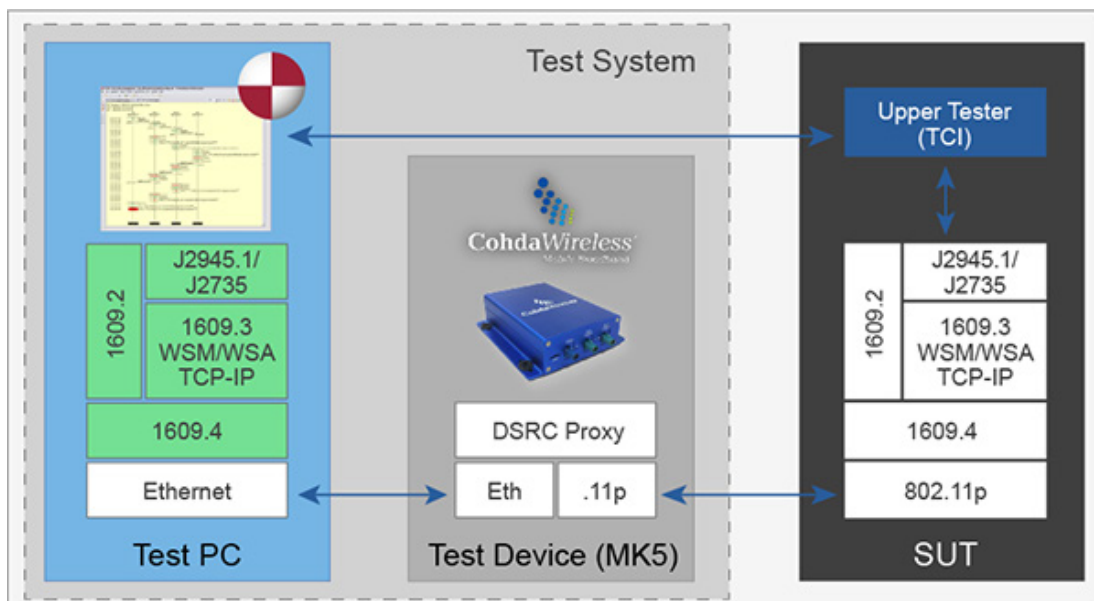

Ensure that your WAVE-DSRC implementation is standard compliant based on USDOT test specifications!

Spirent Communications has released TTsuite-WAVE-DSRC version 1.0.1. This release provides full featured tests based on the Certification Operating Council test specifications for Wireless Access Vehicular Environments (WAVE) including:

- A full set of tests defined in the IEEE Std 1609.2™ based test specification (V1.2)
- A full set of tests defined in the IEEE Std 1609.3™ based test specification (V1.2)
- A subset of tests defined in the IEEE Std 1609.4™ based test specification (V1.2)

Besides support of the Test Control Interface (TCI) and a DSRC proxy application, the test suite provides fully automated test execution. Please consider:

- The latest maintenance version of TTworkbench 23 or the recent TTworkbench 24 is mandatory for using TTsuite-WAVE-DSRC.
- This version includes the security certificates published for the USDOT Connected Vehicle PlugFest May 2017.
- Please read the 'Using TTsuite-WAVE-DSRC → Common Configuration → Security Configuration' guide in the *Help* menu for detailed information of setting up the system correctly.

Download of TTsuite-WAVE-DSRC

To download TTsuite-WAVE-DSRC 1.0.1, you need to register yourself in the Spirent Customer Service Center at <https://support.spirent.com>.

Please follow these detailed instructions on [How to download TTworkbench, TTsuites & TTplugins](#).

It is Spirent's intention to provide our customers with the highest level of customer service. Please direct all questions and inquiries to our support team at support@spirent.com or call our customer care department at +49 30 726 19 19 0.

To ensure fast response times, please mention **TTworkbench** in your request.

Thank you for your continued interest!
