

Spirent TTsuite-WAVE-DSRC 1.1.0

2017-11-30 Release Notes

TTsuite-WAVE-DSRC 1.1.0 is now available for execution on Linux and Windows OS!

This release enhances the test solution by SAE J2945™/1 tests and supports the latest updates in test specifications published by the Certification Operating Council as well as requirements specified by OmniAir™. TTsuite-WAVE-DSRC 1.1.0 also includes the latest certificates for security support, certificates published during the OmniAir™ Connected Vehicle PlugFest (Oct 2017), and fixes for other recently detected issues.

Together with the support of the Test Control Interface and a DSRC proxy application, users can execute test cases fully automated.

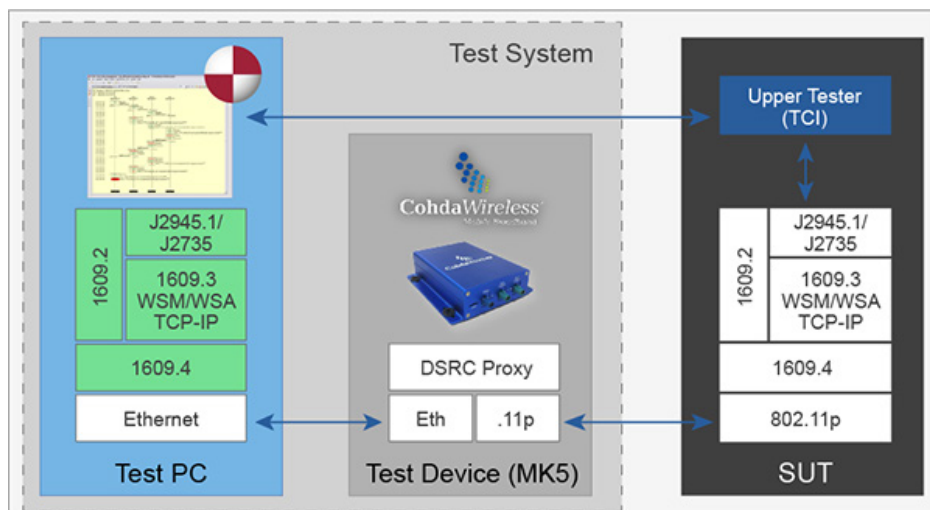

TTsuite-WAVE-DSRC 1.1.0 provides full featured tests based on the Certification Operating Council test specifications for Wireless Access Vehicular Environments (WAVE) with following content:

- A full set of tests defined in the IEEE Std 1609.2™ based test specification (V1.3)
- A full set of tests defined in the IEEE Std 1609.3™ based test specification (V1.3.3)
- A subset of tests defined in the IEEE Std 1609.4™ based test specification (V1.3)
- A subset of tests defined in the SAE J2945™/1 based test specification (V0.5.5)

Please note!

Running TTsuite-WAVE-DSRC 1.1.0 requires the latest maintenance version of TTworkbench 24 or TTworkbench 25.

Please read the 'Security Configuration Guide' for detailed information on setting up the system correctly. Click on [Help](#) → [Using TTsuite-WAVE-DSRC](#) → [Common Configuration](#) → [Security Configuration](#).

Download of TTsuite-WAVE-DSRC

To download TTsuite-WAVE-DSRC 1.1.0, you need to register yourself in the Spirent Customer Service Center at <https://support.spirent.com>.
